A Complete Home System

- TV
- Audio
- CCTV
- Wireless

www.firstclasstechnologies.co.uk

This complete home network system allows you to control your audio, visual, and CCTV requirements from any room in your home. Elegant, flush, wall mounted touch screen technology gives you complete control including your domestic lighting and timer controls. The central home system will also provide Wi-Fi and Digital radio. Why not add flush mounted ceiling speakers and in-wall ipod docking stations for the ultimate in home entertainment and concealed cables and wiring throughout the home. Call now for further details. **First Class Technologies for first class homes!**
